Chief, Intelligence School

Draft Memorandum on Proposed Change in Training of Women JOT's
Destined for the DD/P.

25X1A

1. The draft memorandum is an excellent discussion of possibilities of improving the training program for women JOT's who are assigned to DD/P Headquarters jobs, and I think that you, [REDACTED] should be commended for your work in exploring the problem and suggesting possible solutions.

2. I feel, however, that any specific proposal to change the existing training program for JOT's should come from the source best qualified to determine whether or not there is a real need for change and, if there is, what the change should be and how it should be brought about. In this case, the DD/P Senior Training Officer is best qualified to judge. I also feel that if a program such as you suggest were to be developed, the major responsibility for the development would belong to the Operations School. The Intelligence School would, of course, cooperate in every possible way.

25X1A

3. I suggest, therefore, that the draft memorandum remain in draft and not be submitted to the Director of Training in a form that would require action on the recommendations. I am sure that the DD/P Senior Training Officer, the Chief of the JOT Program, and the Chief of the Operations School will find the draft memorandum an interesting think-piece and will get in touch with you, [REDACTED] if they wish to discuss your suggestions.
